National Selections
Sessions 2008-2009 and 2010-2011*

– DRAFT PROGRAMME –

26 April 2012

Carbonia, Sardinia, 4-5 June 2012

Study visit, 3 June 2012

*Document prepared by the Spatial Planning, Landscape and Cultural Heritage Division
Democratic Governance, Culture and Diversity Directorate – Council of Europe*

The 11th Council of Europe Meeting of the Workshops for the implementation of the European Landscape Convention is organised by the Council of Europe – Spatial Planning, Landscape and Cultural Heritage Division, Democratic Governance, Culture and Diversity Directorate – in cooperation with the Government of Italy – Ministry for Cultural Heritage and Activities of Italy and with the support of the Region of Sardinia, the Province of Carbonia Iglesias and the Municipality of Carbonia.

Introduction

An international intergovernmental organisation created in 1949 and whose headquarters is in Strasbourg (France), the Council of Europe has 47 Member States. Its main objectives are to promote democracy, human rights and the rule of law and to seek common solutions to the main problems facing European society today. The Organisation is active in promoting sustainable development in line with the Recommendation Rec (2002) 1 of the Committee of Ministers of the Council of Europe to Member States on the Guiding Principles for sustainable spatial development of the European continent. These seek to protect populations' quality of life respecting and valorising the resources of the territories.

The European Landscape Convention was thus adopted by the Committee of Ministers of the Council of Europe on 19 July 2000 in Strasbourg and opened for signature of the Member States of the Organisation in Florence (Italy) on 20 October 2000 with the aims to promote European landscape protection, management and planning and to organise European co-operation. It is the first international treaty to be exclusively devoted to all aspects of European landscape. The Convention applies to the entire territory of the Parties and covers natural, rural, urban and peri-urban areas. It concerns landscapes that might be considered outstanding as well as everyday or degraded landscapes.

To date, 37 Council of Europe member States have ratified the Convention: Andorra, Armenia, Azerbaijan, Belgium, Bosnia and Herzegovina, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Finland, France, Georgia, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Moldova, Montenegro, Netherlands, Norway, Poland, Portugal, Romania, San Marino, Serbia, Slovak Republic, Slovenia, Spain, Sweden, “the former Yugoslav Republic of Macedonia”, Turkey, Ukraine and the United Kingdom. Two states have signed the Convention: Malta and Switzerland.

Organised by the Council of Europe on a regular basis since 2002, the meetings of the Workshops for the implementation of the European Landscape Convention take a detailed look at the implementation of the Convention. Special emphasis is given to the experiences of the state hosting the meeting. A genuine forum for sharing practice and ideas, the meetings are also an opportunity to present new concepts and achievements in connection with the Convention. The proceedings are published in the Council of Europe's *“European Spatial Planning and Landscape”* series and are available on the Council of Europe's European Landscape Convention website. The following meetings of the Council of Europe Workshops for the implementation of the European Landscape Convention have been held so far:

- 23-24 May 2002, Strasbourg: *“Landscape policies: contribution to the well-being of European citizens and to sustainable development (social, economic, cultural and ecological approaches); Landscape identification, evaluation and quality objectives, using cultural and natural resources; Awareness-raising, training and education; Innovative tools for the protection, management and planning of landscape”*;
- 27-28 November 2003, Strasbourg: *“Integration of landscapes in international policies and programmes and transfrontier landscapes; Landscapes and individual and social well-being; Spatial planning and landscape”*;
- 16-17 June 2005, Cork (Ireland): *“Landscapes for urban, suburban and peri-urban areas”*;
- 11-12 May 2006, Ljubljana (Slovenia): *“Landscape and society”*;
- 28-29 September 2006, Gerona (Spain): *“Landscape quality objectives: from theory to practice”*;
- 20-21 September 2007, Sibiu (Romania): *“Landscape and rural heritage”*;
- 24-25 April 2008, Piestany (Slovakia): *“Landscape in planning policies and governance: towards integrated spatial management”*;
- 8-9 October 2009, Malmö (Sweden): *“Landscape and driving forces”*;
- 15-16 April 2010, Cordoba (Spain): *“Landscape and infrastructures for the society”*;
- 20-21 October 2011, Evora (Portugal): *“Multifunctional landscape”*.

Organisers

The Council of Europe wishes to thank the Ministry for Cultural Heritage and Activities of Italy, the Region of Sardinia, the Province of Carbonia Iglesias and the Municipality of Carbonia for their cooperation and their hospitality.

The aim of the Meeting of the Workshops

The Convention provides for a ‘Landscape Award of the Council of Europe’ which recognises policies or measures which local or regional authorities or non-governmental organisations have adopted to protect, manage and plan their landscape, which have proven to be lastingly effective and which can thus serve as an example to other territorial authorities in Europe.

On 20 February 2008 the Committee of Ministers of the Council of Europe adopted Resolution CM/(2008)3 on the rules governing the Landscape Award of the Council of Europe. The Award is given every two years by the Committee of Ministers, further to proposals from the Committee of experts of the Council of Europe in charge of monitoring the implementation of the Convention.

The great experiences achieved in the Member States of the Organisation on the occasion of the two first sessions of the Landscape Award of the Council of Europe – 2008-2009 and 2010-2011 – will be presented in this meeting showing that it is possible to promote the territorial dimension of human rights and democracy improving the landscape features of people’s surroundings.
