

„ESCULTURA EN LA CALLE“

Symposium in Barcelona on 4 and 5 May 2007

This international symposium is concerned with sculpture exhibition projects and strategies in public space with special focus on “Open Air” exhibitions and with reference to laCaixa’s programme, “Arte en la Calle”.

The programme of the symposium covers the following topics:

- 1) Economic aspects of art in public space
- 2) Presentations on various extraordinary exhibition projects
- 3) Reports by artists on their exceptional projects
- 4) Presentation of 4 films by the Swiss artist, Roman Signer
- 5) A special unit on Mies van der Rohe and Georg Kolbe

In view of the great interest in this topic, the attraction of Barcelona to tourists, and the intensive publicity efforts to be extended by laCaixa, we expect more than 300 participants from up to 20 different countries. Due to our cooperating partners and the attractiveness of the programme we anticipate broad media coverage.
