## SYMPOSIUM AND EXCURSION 'THE FUTURE OF THE EUROPEAN LANDSCAPE'

### 20 YEARS OF EUROPEAN LANDSCAPE CONVENTION

Symposium: 17th of September 2021, De Gelderlandfabriek in Culemborg

Excursion: 18th of September 2021, Fortress De Roovere in Bergen op Zoom

WLO and NVTL invite you to the Symposium and Excursion 'The Future of the European landscape'.

### SYMPOSIUM

The Symposium is part of a series of conferences organised by UNISCAPE. This Symposium is organised as a hybrid event, allowing for both in-person and online participation.

In this year of the 20th Anniversary of the Florence Convention, and as a prelude on the UNISCAPE closing event of this year in Florence on 22 October, the symposium The Future of the European Landscape will discuss the status of the protection, planning and management of the European landscape. It will recommend actions and measures to provide the needed policy support for landscape in the next 20 years. The

Conference will take place in person, taking into account the valid corona restrictions on that moment, and will be streamed as well.

## **EXCURSION**

The excursion will visit fortress De Roovere in Bergen op Zoom and the modern windpark Krammer. Fortress de Roovere is one of the largest fortresses of the West Brabant Military Water Defence Line, a system of earthen fortresses at strategic points and fields that could be inundated during warfare. It was completely refurbished in 2010. World famous is the Moses Bridge. You walk deep through the water via the Moses Bridge towards the fortress, but your feet stay dry. It is a modern work of art amidst age-old cultural heritage. It won major architecture awards. In 2018, a new theatre tower was realised, the Pompejus. On the way to Bergen op Zoom we will pass new energy landscapes and elements of the Delta Flood Defence Works.

More information about the excursion will be shared on the NVTL and WLO websites shortly.
